1. The first of these is the  
 fact that the population of  
 the world is increasing at a  
 rapid rate. This is due to  
 a number of factors, including  
 improved medical care, which  
 has reduced the death rate,  
 and increased the life span.  
 Another factor is the increase  
 in the birth rate, which is  
 due to a number of factors,  
 including improved medical  
 care, which has reduced the
